RECOMMENDATION

Recognizing recent difficulties for the Davie police and EMS in locating persons in need of those services on portions of the Town's trail system that are unidentified by addresses or cross streets, and having met with representatives of police and fire rescue to learn of their preferred method to correct this situation, the Davie Agricultural Advisory Board recommends the installation of trail markers at quarter mile intervals along such portions of trails that are otherwise unidentified.

Further recognizing that the Town's trail system is partially encompassed within Broward County park lands, the Board also recommends partnering with the county to provide markers on similarly situated trails within the county lands in Davie.

Additionally, after consultation with representatives of the Davie Open Space Advisory Committee, the Agricultural Board recommends that funding for this project comes from the open space bond fund.
